

Activity 1 — Defect log

Week 2, Session 1 · HTML Forms, Input & Accessibility · one sheet per group · collected at 0:47

Group _____ Driver _____ Scribe _____ Presenter _____

EIGHT DEFECTS — LOG EVERY ONE

#	WHAT WAS WRONG	LINE	YOUR FIX	HOW YOU VERIFIED IT
1				
2				
3				
4				
5				
6				
7				
8				

You may not fix anything you cannot first demonstrate is broken. "Looks right now" is not a verification.

WHERE TO LOOK

- Labels and how they are associated
- Input types
- Button semantics
- Grouping of related controls
- Error messages and how they are announced
- Tab order
- Focus visibility
- Anything that exists only as placeholder text

One defect per category. The categories are the hint; the locations are not.

Assessment evidence for outcomes 1 and 2. Hand this in.

SHARE-BACK

The defect we argued about most, and why:

Two minutes per group. Do not recite all eight.
